Types of fractions

Proper fractions

Numerator (Top number) is smaller than denominator (bottom number)

e.g. $\frac{2}{7}$ and $\frac{5}{10}$

Improper fractions

Numerator is larger than denominator

e.g. $\frac{17}{2}$ and $\frac{3}{2}$

Mixed numbers

Whole numbers and a fraction

e.g. $5\frac{1}{3}$ and $1\frac{2}{9}$
